Dry Ice is extremely cold (–109.3° F, –78.5° C) and, if not properly handled, can cause severe cold burns and frostbite.

Do not touch Dry Ice with bare hands, use heavy insulated gloves. Rubber and plastic gloves do not provide adequate protection.

Use protective eyewear when making or handling Dry Ice.

Dry Ice is not edible. Do not put Dry Ice in your mouth and do not allow anyone else to do so.

Keep Dry Ice out of the reach of children and animals.

Do not put Dry Ice in any tightly closed container.

Do not add Dry Ice to any liquid or any liquid to Dry Ice.

Make and use Dry Ice only in a well-ventilated area.

Before operating the Dry Ice Snow Maker, make sure all tank and hose connections are tight. All connections must be tightened with a wrench.

Consult your CO₂ tank supplier about recommended procedures for proper tank installation, storage and operation.
**Absolute Zero® Snow Cone**

**Installation Instructions**

1. Insert washer into tank connector.

2. Connect tank connector to “liquid” outlet on CO₂ tank.

3. Attach narrow end of collection bag to snow cone and secure with fastener. Ensure tabs at wide end of collection bag are completely closed.
4. Open tank valve 1/2 to 3/4 of a turn and fill collection bag.

5. Turn off tank valve, then remove collection bag.

6. Pull tabs at wide end of collection bag and empty snow into container.
WARNING

• Dry Ice is extremely cold (−109.3°F, −78.5°C) and, if not properly handled, can cause severe cold burns and frostbite.

• Do not touch Dry Ice with bare hands, use heavy insulated gloves. Rubber and plastic gloves do not provide adequate protection.

• Use protective eyewear when making or handling Dry Ice.

• Dry Ice is not edible. Do not put Dry Ice in your mouth and do not allow anyone else to do so.

• Keep Dry Ice out of the reach of children and animals.

• Do not put Dry Ice in any tightly closed container.

• Do not add Dry Ice to any liquid or any liquid to Dry Ice.

• Make and use Dry Ice only in a well-ventilated area.

• Before operating the Dry Ice Snow Maker, make sure all tank and hose connections are tight. All connections must be tightened with a wrench.

• Consult your CO₂ tank supplier about recommended procedures for proper tank installation, storage and operation.
